

INDUS DYEING & MANUFACTURING CO. LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1** The company was incorporated in Pakistan on 23rd July, 1957 as a public limited company under the Companies Ordinance, 1984. Registered office of the company is situated at 5th Floor, Office No. 508, Beaumont Plaza, Civil Lines, Karachi. The Company is currently listed on Karachi Stock Exchange (Guarantee) Limited. The principal activity of the Company is to manufacture and sale of yarn and terry towel. The manufacturing facilities of the company are located in Hyderabad, Karachi, Lahore and Muzaffargarh District Multan. Indus Dyeing & Manufacturing Company Limited is also operating four ginning units including three on leasing arrangements and two ice factories on leasing arrangements in District Multan.
- 1.2** As resolved by the Board of Directors in extra ordinary general meeting held on April 24, 2006 to dispose off the property, plant and equipment of weaving unit to the jointly controlled entity, Indus Home Limited. The said transaction has been completed during the year in the mid of October 2006. Further, the property, plant and equipment of weaving unit has been disposed off at their carrying values except for land that has been disposed off at fair value as resolved by the Board of Directors. The carrying amount of assets and operating results of weaving unit are disclosed in notes 13.1 and 34 respectively to the financial statements.
- 1.3** The financial statement are presented in Pak Rupees, which is the company's functional and presentation currency.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance

These financial statements have been prepared in accordance with the approved Accounting Standards as applicable in Pakistan and the requirements of the Companies Ordinance, 1984. Approved Accounting Standards comprise of such International Financial Reporting Standards as are notified under the provisions of Companies Ordinance, 1984. Wherever the requirements of the Companies Ordinance, 1984 or directives issued by the Securities and Exchange Commission of Pakistan (SECP) differ with the requirements of these standards, the requirements of the Companies Ordinance, 1984 or the requirements of the said directives take precedence.

2.2 Standards and Interpretations that have been issued but are not yet effective

The following standards and interpretations of approved accounting standards are not expected to have significant impact on the Company's financial statements.

		Agreements entered on or after 31, 2004	March
IFRS 3	Business Combinations		
		Effective for annual periods beginning on or after	
IFRS 2	Share-based Payment	January 1, 2007	
IFRS 5	Non-current Assets Held for Sale and Discontinued Operations	January 1, 2007	
IFRS 6	Exploration for and Evaluation of Mineral Resources	January 1, 2007	
IFRIC 10	Interim Financial Reporting and Impairment	November 1, 2006	
IFRIC 11	IFRS 2—Group and Treasury Share	March 1, 2007	
IFRIC 12	Service Concession Arrangements	January 1, 2008	
IFRIC 13	Customer loyalty programmes	July 1, 2008	

2.3 Basis for Preparation

The financial statements have been prepared under the historical cost convention modified by:

- recognition of certain employee retirement benefits at present value

- certain investments have been included at fair value
- investment in associate and investment in joint venture under equity method

The principal accounting policies adopted are set out below:

2.4 Taxation

Current

Taxation is based on applicable tax rates under such regime. The provision for current taxation is based on taxable income at the current rates of taxation after considering admissible tax credits and available rebates, if any, or minimum taxation provision the rate of one-half percent of turn over which ever is higher. However, for income covered under final tax regime, taxation is based on applicable tax rate under such regime.

Deferred

Deferred tax is recognised using balance sheet liability method for all major temporary differences arising between tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that tax profits and taxable temporary differences will be available against which deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits and taxable temporary differences will be available to allow all or part of the assets to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the liability is settled or the asset realized. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. The effect of differed taxation of the portion of the income subject to final tax regime is also considered in accordance with the requirement of Technical Release -27 of Institute of Chartered Accountants of Pakistan.

2.5 Staff retirement benefits

Defined benefit plan

The company operates an un-funded gratuity scheme for all its permanent employees. Provision is made in accordance with the requirements of International Accounting Standard (IAS)-19 "Employee Benefits". The detail of which have been given in note 8.2 to the financial statements.

2.6 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received whether billed to the Company or not.

2.7 Property, plant and equipments

2.7.1 Company owned

Operating fixed assets owned by the company are stated at cost less accumulated depreciation and impairment loss if any, except freehold and leasehold land. Depreciation is charged to income using the reducing balance method whereby cost of an asset is written-off over its estimate useful life at the rate specified in the property, plant and equipment note no.13.

Depreciation is charged to income applying the reducing balance method at the rates specified in the relevant note. In respect of additions and disposals during the year, depreciation is charged from the month of acquisition and upto the month preceding the disposal respectively.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to income statement during the financial year in which they are incurred.

Gains and losses on disposal of assets, if any, are recognized as and when incurred.

Depreciation methods, useful lives and residual values are reviewed annually.

2.7.2. Capital work-in-progress

Capital work-in-progress (CWIP) is stated at cost. All expenditures connected to the specific assets incurred during the installation and construction period are carried under CWIP. These are transferred to specific assets as and when assets are ready for their intended use.

2.7.3 Assets subject to finance lease

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognized as assets of the Company at their fair value or, if lower, at the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the balance sheet as liabilities against assets subject to finance lease. Lease payments are apportioned between finance charges and reduction of the liabilities against assets subject to finance lease so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

Assets subject to finance lease are depreciated over their expected useful lives on the same basis as owned assets.

2.7.4. Impairment

The company assesses at each balance sheet date whether there is any indication that assets except deferred tax assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in profit and loss account. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of initial cost of the asset. Reversal of impairment loss is recognised as income.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognised as an income or expense.

2.8 Leases

Leases are classified as finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

As Lessee

Assets held under finance leases are recognized as assets of the company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as liabilities against assets subject to finance lease. The liabilities are classified as current and long-term depending upon the timing of payment. Lease payments are apportioned between finance charges and reduction of the liabilities against assets subject to finance lease so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit and loss account, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the company's general policy on borrowing costs.

2.9 Stores, spares and loose tools

These are valued on moving average cost method less allowance for obsolete and slow moving items. Items in transit are valued at invoice values plus other charges incurred thereon.

2.10 Stock in trade

Stock in trade, except in transit which is valued at cost accumulated to the balance sheet date, is valued at lower of cost and net realizable value applying the following basis:

	Basis of valuation
Raw material	On average cost
Packing material	On moving average cost
Work in progress	Average cost of material and share of applicable factory overheads
Finished goods	Lower of average cost or net realizable value
Waste	Net realizable value

Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and estimated cost necessary to make the sale.

2.11 Trade debts and other receivables

Trade debts and other receivables are carried at original invoice amount less an estimate made for doubtful receivables based on review of outstanding amounts at the year end. Balances considered bad and irrecoverable are written off when identified.

2.12 Investments

2.12.1 Interest in a joint venture

The company has an interest in a joint venture which is a jointly controlled entity . A joint venture is a contractual arrangement whereby two or more parties undertake an economic activity that is subject to joint control, and a jointly controlled entity is a joint venture that involves the establishment of a separate entity in which each venture has an interest. The company recognises its interest in the joint venture using equity method of accounting and initially are recognised at cost. When the Company's shares of losses exceeds its interest in the carrying amount of that interest is reduced to nil and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

2.12.2 Investment in associates

Associates are all entities over which the company has significant influence, but not control, generally accompanying a shareholding of 20% or more of the voting rights.

These investments are accounted for using equity method of accounting and initially are recognized at cost. When the Company's share of losses exceeds its interest in the carrying amount of that interest is reduced to nil and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

2.12.3 Financial asset at fair value through profit and loss

Investments, which are acquired for the purpose of generating profit from short term fluctuation in prices or dealers margin, are classified as held for trading. These investments are initially recognised on trade - date basis and recorded on fair value that is consideration paid plus directly attributable transaction cost and are subsequently measured at fair value and resulting gain / (loss) is taken to income currently.

Fair value of quoted marketable securities is determined by reference to the stock exchange rates ruling at the balance sheet date.

2.13 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.14 Foreign currency translation

Transactions in foreign currencies are translated into reporting currency at the rates of exchange prevailing on the date of transactions except for those covered by forward contracts, which are translated at contracted rates. Monetary assets and liabilities in foreign currencies are translated in Pak Rupees at the rates of exchange prevailing at the balance sheet date except for those covered by forward contracts, which are stated at contracted rates.

Exchange gains and losses are included in income currently.

2.15 Provisions

Provisions are recognized when the company has a present, legal or constructive obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

2.16 Revenue recognition

Sales are recorded on dispatch of goods to customers.

Income on bank deposits are recorded on time proportionate basis using effective interest rate.

Dividend income is recorded when the right to receive the dividend is established.

2.17 Financial instruments

All financial assets and liabilities are recognized at the time when the company becomes party to the contractual provisions of the instrument and derecognised when the company loses control of the contractual rights that comprise of the financial assets and in case of financial liability when the obligation specified in the contract is discharged cancelled or expired. These are initially measured at cost, which is the fair value of the consideration received and given respectively. These financial assets and liabilities are subsequently measured at fair value, amortized cost or cost, as the case may be. Any gain or loss on the recognition and derecognition of the financial assets and liabilities is included in the net profit and loss for the period to which it relates.

2.18 Offsetting of financial assets and financial liabilities

A financial asset and a financial liability is offset and net amount is reported in the balance sheet if the company has a legal right to offset the recognized amounts and also intends either to settle on a net basis or to realize the assets and settle the liability simultaneously.

2.19 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of cash flow statement, cash and cash equivalents comprise cash, demand drafts in transit and balances with banks on current and deposits accounts.

2.20 Dividend

Dividend is recognized as a liability in the period in which it is declared.

2.21 Critical judgments and accounting estimates in applying the accounting policies

In the process of applying the company's accounting policies, the management has not identified any area where critical judgements have been exercised which have significant impact on the financial statements. Further, there are no key assumptions concerning the future and other key sources of estimating uncertainty at the balance sheet date that have significant risks of causing a material adjustment within the next financial year.

39.2 FINANCIAL RISK MANAGEMENT

Risks arising from the company's financial assets and liabilities are limited. The company manages its exposure to financial risk in the following manner:

a) Interest rate / mark-up rate risk

Interest rate / markup rate risk arises from the possibility that changes in interest rates / markup rates will effect the value of financial instruments. The company has long-term Rupee based loans at variable rates. Financial liabilities exposed to floating interest rate risk include in the above amounting to Rs. 3,753.140 million (2006: Rs. 3,953.962 million).

b) Foreign exchange risk

Foreign Exchange Risk arises mainly due to conversion of foreign currency assets and liabilities into local currencies. This exists due to the company's exposure resulting from outstanding import payments and outstanding export debtors. The company takes the currency exposure for limited periods. Financial assets exposed to foreign exchange rate risk included in the above amounting to Rs. 305.250 million (2006: Rs. 135.150 million).

Rs. 395.250 million (2006: Rs. 135.459 million).

c) Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties failed completely to perform as contracted. Out of the total financial assets of Rs.859.109 million (2006: Rs.499.499 million), the financial assets which are subject to credit risk amounted to Rs. 854,984 million (2006: Rs. 467.465 million). This risk is mitigated through regular monitoring of debtors outstanding beyond the normal credit period allowed, initiation of effective follow-up till realization, restriction on further business and provision for impairment losses, if any.

Concentration of credit risk on cash based financial assets is minimized by dealing with a variety of major banks.

d) Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in raising funds to meet commitments associated with financial instruments. The management of the company closely monitors the company's liquidity and cash flow position and believes that the company is not exposed to significant level of liquidity risk.

e) Fair value of financial instruments

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values.
